2A. Project Detail

- 1a. CoC Number and Name:** CA-527 - Tehama County CoC
1b. Collaborative Applicant Name: Alternatives to Violence
- 2. Project Name:** CA-527 CoC Planning Project FY2019
- 3. Component Type:** CoC Planning Project Application

2B. Project Description

1. Provide a description that addresses the entire scope of the proposed project and how the Collaborative Applicant will use grant funds to comply with the provisions of 24 CFR 578.7.

CA-527 is requesting planning funds for FY2019 to ensure continued progress towards its goal of ending homelessness in Tehama County through design of a sustainable system of service delivery that will safely and permanently rehouse persons and families who become homeless through a communitywide process involving the coordination of nonprofit homeless providers, victim service providers, faith-based organizations, governments, businesses, advocates, public housing agencies, school districts, social service providers, mental health agencies, hospitals, universities, affordable housing developers, law enforcement, organizations that serve veterans, and homeless and formerly homeless individuals.

Funds awarded will allow CA-527 to maintain the services of its coordinator, whose responsibilities include overseeing scheduling of committee and governing board meetings, curating available information from various relevant resources and disseminating such information to the membership, monitoring evolving compliance requirements and suggesting revisions to CA-527's written standards to ensure continued compliance, maintaining the CoC's website and other communications, providing technical assistance to providers regarding program design and serving as a point of contact for those with which the CoC interacts and partners. CA-527's CoC Coordinator is also responsible for overseeing the design and implementation of the collaborative, community-wide process for the development of the annual consolidated application, including the process for local selection of projects and the collaborative process of gathering information and data regarding the local homelessness assistance system. In addition to ensuring the continued service of CA-527's coordinator, funds will also make it possible to further expand the CoC's membership, to encourage participation in the CES through demonstration and training events and an assessment and referral drive to be conducted at the community's annual LIFT Event.

2. Describe the estimated schedule for the proposed activities, the management plan, and the method for assuring effective and timely completion of all work.

General coordination, activities are ongoing, as are activities related to monitoring and evaluation of funded projects. CoC Application Activities will be conducted according to the NOFA release dates as scheduled by HUD. Annual CoC membership recruitment activities are scheduled to occur just prior to and during the CoC's annual LIFT event, held in mid-November.

3. How will the requested funds improve or maintain the CoC's ability to evaluate the outcome of CoC and ESG projects?

Requested funds will improve the CoC's ability to evaluate the outcomes of each CoC funded program as well as the entire CoC service delivery system by supporting the monitoring and evaluation coordination activities, carried out primarily by the CoC Coordinator, which include providing technical assistance to projects regarding accurate data collection and project-level data analysis with which to guide program delivery improvements, scheduling quarterly reporting of project managers to the CoC's Executive Council (governing board) and community leadership and providing ongoing education to providers, Executive Council members and community leaders regarding best practices in program delivery and the ways in which program outcomes can and should guide decision-making. Continued funding will also allow for further training and assistance for projects performing below benchmarks and will allow them opportunities to gain skills both for improving their programs and for using data available to them internally through the HMIS to gain insight into identifying successful program components as well as areas for improvement.

4. How will the planning activities continue beyond the expiration of HUD financial assistance?

The intent of the planning activities described herein are to continue developing a system that will remain sustainable despite future changes in funds availability. Expanding the membership of the CoC and the impact of CoC activities in the community will help community leaders understand the problem and see demonstrations of how our collaborative work can actually end homelessness over time and with resources. CA-527 members have been working with community leaders to help them understand how we can make a difference, why it is important for them to support this effort, and to share with them approaches being used by other communities to end homelessness. CA-527 will continue to seek collaborative funding from local foundations similar to the grant that Empower Tehama (CA-527's HMIS Lead Agency) and the CoC's coordinator secured from Dignity Health that made possible the initial development of CA-527's CES and recently implemented state programs, through which CA-527, who receives no annual project funding through the HUD CoC Program aside from CoC Planning Funds, now funds its HMIS and CES. The CoC's Coordinator will continue research into funding opportunities and the Executive Council will identify organizations to apply for funding. The founding members of CA-527 are resourceful in operating on volunteer work and donated space, as is evidenced by the progress made during its first several months as a new CoC with very little funding. Fortunately, CA-527's initial efforts are increasingly gaining the confidence and support of several community entities, and this support is likely to grow as successful collaborations are further developed.
